LETTER OF TRANSMITTAL.

Office of the State Auditor,
Pierre, S. D., Nov. 30, 1892.

Hon. Arthur C. Mellette,

Governor of the State of South Dakota:

Sir—Pursuant to the requirements of law, I have the honor to herewith submit, for your consideration and transmission to the Legislature of the State of South Dakota, the report of the State Auditor for the period beginning Dec. 1, 1890, and ending June 30, 1892, both dates inclusive. This report comprises two general divisions:

I. Pertaining to the fiscal affairs of the State under the appropriations of the State Legislature.

II. Pertaining to the business of the Insurance department.

In connection with the tabular reports included in this report, I have added such remarks and suggestions as seem proper in relation to the affairs of this office and the laws governing the same.

With great respect, I subscribe myself,

Your obedient servant,

L. C. TAYLOR,
State Auditor.

DIVISION I—PART I—FISCAL AFFAIRS.

THIS DIVISION OF THE REPORT GIVES:

1. A statement of date, number and amount of each warrant issued during the period covered by this report; the person in whose favor and on what fund each warrant was drawn, under appropriate heads.

2. The total amount of warrants redeemed and returned to the Auditor by the State Treasurer.

3. A statement of account of the several funds and appropriations, showing the sums appropriated, the amount drawn on each fund and the unexpended balances.

WARRANT ACCOUNT.

The following tabular statement exhibits the warrants drawn on the State Treasurer (under appropriations made by the State Legislature to cover expenditures to March 8, 1891, and also appropriations made by the State Legislature to cover expenditures to March 8, 1892), showing number of warrant, date, to whom drawn and amount. The statement, showing warrants drawn on 1892 appropriations made by the State Legislature from March 8, 1891, to June 30, 1892, inclusive, will be found in Part 2 of this division.

Adjutant General.

DIVISION II—INSURANCE.

BUSINESS OF THE PERIOD.

In this report the receipts and expenditures of the office are given, and tables have been compiled showing the companies authorized to do business in the State and the important features of their reports, which tables are published in connection with this report.

The following table shows the total business reported for the years 1890 and 1891 in this State:

Companies.	1890.	1891.
Foreign Fire Companies—		
Risks Written	$16280769 83	$ 18049815 01
Premiums Received	338212 02	342047 27

Losses Paid	326 37	510 49

TAXES.

Every insurance company doing business in the State, except companies organized under the laws of the State, pays taxes on the gross amount of premiums received in the State. Fire and Life companies pay two and a half per cent., Assessment companies two per cent. The growth of the business in this State is shown by following amounts of taxes and fees collected for three years, viz:

Taxes Collected in.....1890	$12,885.35	Fees.....	$ 8,267.35
Taxes Collected in.....1891	14,260.59	Fees.....	8,428.85
Taxes Collected in.....1892	15,834.34	Fees to Nov. 1, '92....	8,100.50
	$42,980.28		$24,796.70

Total from all sources $67,776.98, collected by this department and paid into the State treasury.

AID FOR FIRE DEPARTMENTS.

Any organized town or city in which a regular fire department is maintained, according to law, is entitled to two per cent. of the fire insurance premiums paid in said town or city. This amount is paid to the towns or cities for the benefit of the fire department, but to obtain same a statement must be filed each year according to the provisions of section 1137 of the compiled laws. See also sections 1139-40 and 41. This office has no blanks to furnish on which to make statements and the clerks of cities or towns applying for fire tax will write out the required statements as specified by above named sections, certify to same, attaching seal of office. The tax for any year is paid in July of following year. To obtain 1892 tax statement must be filed on or before Oct. 31, 1892, when tax will be paid in July, 1893. For list of towns and cities see page 171 of this report.

Since our last report, the following companies have complied with the requirements of our insurance laws and in 1891 there were admitted:

Hekla Fire Insurance Company, of St. Paul, Minn.; Manchester Fire Insurance Company, of Manchester, England; West Coast Fire & Marine Insurance Company, of Tacoma, Wash.; Masonic Mutual Aid Association, of Minneapolis, Minn.; National Benevolent Association, of Minneapolis, Minn.; Modern Woodmen of America, of Fulton, Ill.; Fidelity Mutual Aid Association, of Cal-

ifornia; Queen Insurance Company of America, of New York.

Up to July 1, 1892, the following additional companies were admitted:

Home Insurance Company, of New York; Odd Fellows Mutual Aid and Accident Association, of Piqua, Ohio; Iowa Masons' Benevolent Society, of Oskoloosa, Iowa; Des Moines Life Association, of Des Moines, Iowa; American Employers Liability Insurance Company, of Jersey City, N. J.; Life Insurance Clearing Company, of St. Paul, Minn.; Northwestern Legion of Honor, of Marengo, Iowa; The Total Abstinence Life Association of America, of Chicago, Ill.; Union Hail Association, of Huron, S. D.

The following companies have ceased doing business in this State:

Hekla Fire Insurance Company, of St. Paul, Minn.; West Coast Fire and Marine Insurance Company, of Tacoma, Wash.; National Benevolent Association, of Minneapolis, Minn.; Queen Insurance Company, of Liverpool, England; St. Paul German Insurance Company, of St. Paul, Minn.; St. Paul German Accident Insurance Company, of St. Paul, Minn.; Alliance Hail Association, of Huron, S. D.; Fidelity Fire Insurance Company, of Huron, S. D.; Western Home Insurance Company, of Sioux City, Iowa; Liberty Insurance Company; of New York; Northwestern Masonic Aid Association, of Chicago, Ill.; Commercial Insurance Company, of San Francisco, Cal.; Knoxville Fire Insurance Company, of Knoxville, Tenn.; New England Mutual Accident Association, of Boston, Mass.; Watertown Fire Insurance Company, of Watertown, S. D.

The Alliance Aid Association, of Huron, S. D., has merged into the National Alliance Aid Association, of Washington, D. C., with principal place of business at Huron, S. D. The Dakota Hail Association, of Plankinton, S. D., was reorganized in February, 1892, and place of business changed to Mitchell S. D.

The excellent life and assessment laws passed by the first legislature continue to give satisfaction and are, all in all, as complete and satisfactory as those of any western state. Rigid compliance with these laws has been exacted and it has resulted in benefitting all concerned. Every contract has been faithfully carried

out by the companies and no man has lost a dollar by means of default on the part of the companies. Wild cat companies have been driven from the State and the business of legitimate companies has greatly increased.

I would again call attention to the laws governing hail insurance. They are unsatisfactory and provide no protection to the policy holders.

Hail insurance is an absolute necessity and laws should be enacted which will render the managers of this class of companies responsible and provide security for policy holders. The losses are enormous and fall upon a class unable to bear them.

When the law is open for fraud, deceit, extravagance and mismanagement, there will always be persons who will take advantage of the opportunity.

Hail insurance can be put on a safe and conservative basis by carefully drawn laws, hedged around with restrictions as to the amount insured in given localities and security given for the insurance.

The person who gives a note for insurance should be obliged to pay it and the company which insures against loss should be obliged to account for every dollar received. Salaries of officers and managers should be paid in the same ratio as losses.

The laws governing fire insurance are poor and inadequate. New laws should be enacted, and in enacting new laws careful attention should be paid to the laws of older states.

The "valued policy law" should never be enacted in this State. It increases the moral hazard, and is against public policy.

The insurance department of the Auditor's office is gaining in importance every day, and should be made a separate department with a commissioner of Insurance either elected or appointed. With an efficient official at its head and the office made a division independent of all others, its efficiency would be greatly enhanced and the revenue paid to the State greatly increased.

GENERAL REMARKS.

This, the second, report of the State Auditor to the Legislature is as complete as it can be made with the appropriation available. A report from this office should be made every year, to the end that people may know just how and for what their money is being expended.

INSURANCE REPORT.

An insurance report, showing the condition of each company authorized to do business in this State, should be issued annually. The importance of this work can be estimated when it is known that the people of South Dakota paid in the years 1890–91, $852,778.32 in fire premiums and the companies, during the same period, paid for losses $391,734.02; in hail premiums $216,181.98, paid for losses $116,048.95; in life and accident premiums $504,352.88, paid for losses $152,447.36, making a total, paid by the people in two years, $1,573,313.18. Of which amount the companies paid back in losses $660,230.33.

During the three years South Dakota has been a State these companies have paid in taxes and fees to this office $67,776.98.

OFFICE WORK.

The work of the office has increased every year, and, in the very nature of things, will continue to increase. The office has been crippled on every hand for want of a sufficient appropriation to carry on its work.

It is generally conceded that no office in the State is of more importance and it is absolutely necessary that adequate provision be made for its maintenance. If this is not done the interests of the State are bound to suffer. During the past two years the work has been kept up, but it has only been done because every man connected with the office from its head down has worked more hours in the day and more days in the week than men ought to be required to do.

Improvements, which would have been to the advantage of the State, could have been made, but too small appropriations and an already over-worked force

rendered it impossible. There is no economy in cutting appropriations below actual necessities in an office of such vital importance to the State as the Auditor's office.

ASSESSMENT AND EQUALIZATION.

The new law is a great improvement over the old, but it can still be improved. The law should be given a careful revision, the unconstitutional sections stricken out, weak sections strengthened, and other sections added to increase its scope and usefulness.

The Auditor is charged with the superintendence and direction of the assessment, but has no power to enforce his rulings and instructions. County Auditors and Assessors frequently do very much as they please, consequently the work is not always what it ought to be.

The Auditor, if he is to superintend this work, should be given power to enforce his rulings, to the end that uniformity and equal taxation may obtain in the different counties.

The assessment book and blanks sent from this office last spring were the result of care, study and experience. They are pronounced by competent judges, the best. As long as the present law is in force the use of the book should be made mandatory.

A complete report of the proceedings of the State Board of Assessment and Equalization should be published annually by the Secretary of State, in whose office the record is kept.

FISCAL YEAR.

The fiscal year becomes operative from and after June 30, 1893, but in making this report it is treated as if operative June 30, 1892. The law provided for the establishment of a fiscal year but the appropriation bill postponed it until '93. This fact should be taken into consideration when appropriations are made.

STATE HOUSE.

The addition to the State House was made under direction of a board and the building was enlarged to its present dimensions with money to spare from the appropriation made. It is believed the building will furnish ample quarters at all times for years to come.

Certain portions of the building are rented to the government at $1,500 a year. The rental will, in two years more, pay for the cost of the addition.

SETTLEMENT WITH COUNTIES.

Under the law passed by the last Legislature, an attempt was made by this and the Treasurer's office to settle old territorial taxes with the counties. It was found that the county books were, in most cases, in such shape that the officials could not make a statement upon which a settlement could be based. Seven months were vainly spent in trying to arrive at a settlement and the attempt reluctantly abandoned.

This settlement should be made in the interest of both Counties and State.

There is but one way to accomplish it. That is to have an accountant, familiar with State and County books, to go to each county and effect the settlement while there, after going over the books of the County and comparing the result with the account of the State against that County. The State representative should have full authority to act for the State and the settlement thus made should be final.

CERTAIN TAXES.

The constitution should be amended so that taxes can be levied on gross earnings. Certain kinds of property, which cannot be reached from a standpoint of value, should pay its share of the public burden. This it fails to do. Neither can it be reached except by a tax on earnings. At the present time such a tax is levied and collected in a few cases, but the law under which it is done would not stand a test of the courts.

The law regulating the assessment of telegraph, telephone and express companies is all right as far as it goes, but it does not go far enough. Penalties for failure or refusal to pay the taxes should be enacted and the Auditor or Treasurer or both should be empowered to enforce the collection.

APPROPRIATIONS.

An express appropriation of a specific amount should be made for everything. There are many laws which imply an appropriation and which authorize the creation of a debt against the state which should be amended or repealed.

DUTIES OF AUDITOR.

A law should be passed defining the duties and powers of the State Auditor. At present these duties and powers are not as clear as they should be.

SCHOOL MONEY.

The Auditor being a member of the State Board of School and Public Lands, feels that it is in his province to call attention to the present method of loaning school money. It must be loaned either on school bonds or on lands, the latter at one half its assessed valuation. The money is not readily loaned and as a consequence the State does not get the interest for the use of schools which it would under another system. The Legislature has also failed to fix a rate of interest and the commissioners in many counties are strangely loth to do their part.

I would suggest that a commission, consisting of the County Treasurer, School Superintendent and State's Attorney, be created: that this commission at certain fixed times visit and appraise lands upon which loans are asked and that not to exceed 70 per cent of the appraised value, exclusive of improvements, be loaned thereon, upon recommendation of said commission. The commission should receive a reasonable compensation for their services and the duty should be made mandatory.

In order to do this the constitution will have to be amended. The above or some other system will answer for some years.

But in time South Dakota's magnificent school fund will have to seek outside investment and the constitution will again need amendment.

If the sale of school lands keeps on as it has begun, the time will come when this State will dictate rates of interest for the great west, and the State's financial agent will have to seek for interest-bearing investments.

OFFICE FORCE.

During the past two years the office force has consisted of L. P. Chapman, deputy auditor; C. H. Anderson, chief clerk insurance department and W. A. Burrington, bookkeeper. The gentlemen have proven themselves willing, industrious and capable, and the present excellent condition of affairs in the office is largely due to their intelligent and efficient services.

Respectfully Submitted,

L. C. TAYLOR, State Auditor.
